Derek Piotr - “Remain”

Derek Piotr’s (also appearing [on Vulpiano Records](#)) *AGORA* contains an impressive series of sound collages, many of which capture the feeling of an uneasy sensation woven with technology, perhaps best described as how you might feel after watching a marathon of *Serial Experiments: Lain*...It’s my favorite release from Piotr yet - check out his summary of the tracks [here](#) and the label release page [here](#). A remix release party for *AGORA Regathered* is happening [in New York on 12/10](#).
