May 23 2012 Track: Derek Piotr- 'Insects'

I first came to finding [*Derek Piotr's*](#) when our very own [**MMOTHS**](#) remixed his track '*Focus.*' I recommend you check [*it out*](#). This is a new track from his second record '*Airing.*' It is dark and creepy, but also so interesting. He's uses a range of textures to create a weird, strange and often enthralling record. There are no real influences here and his music may be one of the most unique records you will hear all year.
